JOIN US IN FEBRUARY 2025

The 18th annual Energy High Performance Computing Conference, hosted annually at Rice University by the Ken Kennedy Institute, is the premier meeting place for the energy industry to engage in conversations about challenges and opportunities in high performance computing, computational science and engineering, machine learning, and data science.

Attended by over 500 leaders and experts from the energy industry, academia, national labs, and IT industry, this is a unique opportunity for key stakeholders to engage and network to help advance HPC in the energy industry.

As a sponsor, your company benefits from exhibit space, various promotional opportunities, and the chance to network with attendees on February 25–26, 2025.
